

SUMMIT LUBRICANTS

Brings Home The Gold!

This special award is only given to defense suppliers that meet the most stringent quality and delivery requirements established by the Defense Logistics Agency. A computerized system, Automated Best Value collects a vendor's past performance data and translates it into a numeric score, from zero to a perfect 100.

Once again, Summit Lubricants scored a perfect 100. Let us help you score a perfect 100.
